**Subject:** RE: Non-ERT Stack Testing Reporting Template

Hey Andrew,

Take a look at "Chemical Manufacturing Section 114\_nonERT Stack Test Results\_[Company]\_[Facility].xlsx". I think we're set. If you agree, we'll need to make sure we reference this nonERT results template properly in Enclosure 1.

Thanks,

Jason

OK. There's a template already started. It's the original one I drafted (before we thought WebFIRE template and before we thought some ERT would be used) and I moved it to the archive folder. I will move it back out and will look into updating it to address non-ERT vs. ERT...similar to what we did for EMACT.

Hi Jason,

Gerri just let me know that we should develop a non-ERT test method reporting template in lieu of using the Webfire template for the chem sector 114, so I'm thinking we probably should start with the one we developed for EMACT and revise as needed. Is this something you can help with?
